

DOpAMInE Program

Donostia-San Sebastián

DOpAMInE Program

DOpAMInE (*DO*nostiA Mesoscopic physics Exchange) is a brand new program that we started thanks to the financial support of the Donostia International Physics Center (DIPIC). This program allows graduate students to spend *up to six months* in Mesoscopic Physics Group in Donostia-San Sebastián in order to complete a research project.

The project needs to be discussed up front

between one of the member of our group and and the PhD advisor.

What: Exchange for Graduate Students in the Mesoscopic Physics Group

When: Starting 09.2014

Where: Donostia-San Sebastián
Basque Country, Spain

Contact: sebastian.bergeret@ehu.es
